Health and
Human Services
Data Center

Managed Risk
Medical Insurance

Mental Health

Rehabilitation

Social Services

Statewide Health
Planning and
Development

The Schwarzenegger Administration is committed to making the changes in State policies and programs necessary to ensure that older Californians and persons with disabilities have appropriate access to and choices of community based services and placement options. The California Health and Human Services (CHHS) Agency and related departments will comply with the requirements of *Olmstead* to the maximum extent possible. Although the state's fiscal challenges and the change in Administration slowed implementation of the 2003 Olmstead Plan, the Administration is committed to making progress in this area. Toward that end, the Long-Term Care Council will be convened to help inform the Schwarzenegger Administration's efforts to move forward with implementation of the Olmstead Plan.

Agenda Topics

1. Activities undertaken to date to implement the 2003 Olmstead Plan.
2. New financing and collaborative activities that have emerged since the Council last met to advance the outcomes of the Olmstead Plan.
3. Unresolved efforts and barriers to progress and priority actions going forward.

If you need disability-related alternate formats and/or reasonable accommodation in connection with this meeting, please contact Daryl Spiker at (916) 654-3345, or dspiker@ohi.ca.gov by August 16, 2004.
